

GUIDELINES & RECOMMENDATIONS FOR CLEANING 1000 & 1100 SERIES THERMOFORMABLE MATERIALS

The following cleaning agents have been tested and found to be compatible with Rowmark Custom Laminations 1000 & 1100 thermoformable materials. The manufacturer's recommendation and instructions for these products should be followed.

- // 99 Isopropyl Alcohol
- // Joy (registered trademark Proctor & Gamble)
- // Mr. Clean (registered trademark)
- // Palmolive (registered trademark of Colgate Palmolive)
- // Windex with Ammonia D (registered trademark of SC Johnson Son, Inc.)

WASHING TO MINIMIZE SCRATCHING AND PRESERVE APPEARANCE:

- // Wash with a non-abrasive detergent
- // Use lukewarm water
- // Use a clean sponge or soft cloth
- // Rinse well with clean water
- // Thoroughly dry with a clean, soft cloth
